Kurt Muenchow Environmental Restoration Division DOE, RFFO

OPERABLE UNIT 5, WOMAN CREEK PRIORITY DRAINAGE: CHEMICALS OF CONCERN (COC) TECHNICAL MEMORANDUM (TM) #11 MEETING MINUTES - CAB-018-95

Action: Forward meeting minutes to the regulatory agencies

Enclosed are the minutes from the meeting held on February 16, 1995, with the Environmental Protection Agency (EPA) and the Colorado Department of Public Health and Environment (CDPHE). The purpose of the meeting was to discuss whether arsenic is a Potential Chemical of Concern (PCOC) and how it should be included in the Human Health Risk Assessment (HHRA).

It was agreed that arsenic is attributable to background and should not be considered a PCOC in any media at OU5. It was also agreed that the background risk of arsenic should be calculated and discussed in the uncertainty section of the HHRA of the RFI/RI Report. Carl Spreng, CDPHE, requested a few days to confirm these discussions with his department.

Please transmit the attached meeting minutes to the EPA and the CDPHE. If you have any questions regarding this transmittal, please contact me at extension 9100.

If I can provide any additional information, please call me at 966-9100.
